STI Campus STI COLLEGE TANAUAN	Program BSIT	Year Level 4
Host Company MAYO HOLDINGS AND CONSTRUCTION (MHC), INC.	Department Assigned to MITSD	Section B
Schedule (Date): FEBRUARY 9, 2026 - FEBRUARY 13, 2026	Number of Working Hours: 64 HRS	

Weekly Accomplishments

The student trainee should give a summary of the tasks performed during the week and how it was accomplished.

On the first day of the week, I helped Sir Charles put back the printer in the billing department. I read an article about Design Logs, I implemented it and it narrowed what I am supposed to do and help me not be lost. I was taught how to distribute the number of IPs by Sir Jerico by subtracting the 3rd octet web addresses in 255.255.128.0 with this I am able to cater around 32,768 numbers of IPs. This is done by entering the printer's web address and setting it up there.

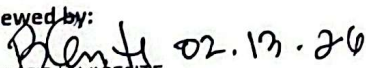

By the second day, I reviewed the architecture diagram and was given access to the admin page of their wordpress website. After that I was instructed to call SETs and help with their inventory. Sir Bernabe also taught me techniques on how to pull out files from the cabinet. On the last period on the shift I installed Elementor, Yeost, Asta, Wordfence, and Essential Addons after installing them I successfully tried and tested.

On the third day, I saw the system that they have been using and observed how it works. I was also able to implement designs on the website that they plan to use and fill it with info that they might need. I decided to use Elementor for them not to be confused on how to operate the website because it develops systems the app or system used be user-friendly.

On the fourth, I was able to structure the company page hierarchy, improved my layout, and did a site audit in case someone will be using the site. We disposed of assets that were old and not being used.

On the last day, I resumed the encoding of inventory on excel and observed how the process of returning a phone is handled and created contact forms to be filled out on the website. Sir Jerico taught me how to crimp and the basics of crimping with ease.
