

WEEKLY JOURNAL

Last Name RIO	First Name JOSHUA ALNIE		MI P.
STI Campus STI COLLEGE TANAUAN	Program BSIT	Year Level 4	Section B
Host Company MaYo HOLDINGS AND CONSTRUCTION (MHC), INC.	Department Assigned to MITSD		
Schedule (Date): March 23, 2026 - March 27, 2026	Number of Working Hours: 36 HRS		

Weekly Accomplishments

The student trainee should give a summary of the tasks performed during the week and how it was accomplished.

Day 33

As I started working on the mobile and iPad responsiveness, I found out that some sections I made earlier were not efficient. I modified these sections and then made them responsive. While doing this, I thought about how to automate the job postings. I eventually found make.com and Zapier. I asked Ma'am Yvette if they use those tools, and she explained the overall differences between the two workflow automations.

Day 34

I focused on making the "Work With Us" page responsive. I noticed that some shape dividers were misaligned, so I fixed them. I also adjusted the paddings to make the page look better and easier on the eyes. As a side task, I helped Sir Charles print the new job request forms. I cut a bunch of them and arranged them in their proper places.

Day 35

I was tasked with printing and preparing MITSD's new job request forms. First, I double-checked for misspelled words to make sure they met Sir Bernabe's standards. After that, Sir Jerico gave me access to their ATM System. Later, Sir Charles taught me how to use the system. This included how to find the bincard text box, how to locate the bincard, how to input data, and what details to look out for.

Day 36

Today, Sir Bernabe assigned me to double-check the bincards. I had to make sure that the records on the paper bincards matched the records in the ATM System. He reminded me to be very precise. He explained that department heads often ask for reports, and he needs to be able to pull them out immediately using the system he developed.

Day 37

On the final day of my shift, I focused on organizing the folders for both MHCI and ISO Tech. Following the instructions from Sir Bernabe, I laid out all the documents and arranged them alphabetically. I then carefully placed each folder into its respective section to ensure it was orderly and easy to navigate. To sum it all up, I have learned to become more detail-oriented with Sir Bernabe's help.
