Day 63:

My focus today was to complete the Website Turnover Document. I referenced all instances of icons and images used throughout the project with careful citation and concern for copyright. Also, I updated the contact sections, which were not using the fax with the latest information being changed to the email fields so it looks more like an email.

As for my assessment, I have handed in my assessment form to Sir Bernabe who will be looking at my work and development for the past week. Additionally, I worked with the HR department to obtain the necessary paperwork for my OJT Program final report, called my Integration Paper. They have promised me to send these materials as soon as possible so that I could submit on time.

During this time of OJT, I have found that I have learned a lot by concentrating on each of my tasks, understanding them in detail, and doing them in a precise manner. My commitment to quality and professionalism was taught to me by my father, and is enhanced due to Mr. Bernabe, including his MITSD department team. As I continue through my internship requirements, I will continue to perform my duties at this level.
