STI Campus STI COLLEGE TANAUAN	Program BSIT	Year Level 4
Host Company MaYo HOLDINGS AND CONSTRUCTION (MHC), INC.	Department Assigned to MITSD	
Schedule (Date): March 2, 2026 - March 6, 2026	Number of Working Hours: 40 HRS	

Weekly Accomplishments

The student trainee should give a summary of the tasks performed during the week and how it was accomplished.

Day 18 - I proceeded with the creation of the corporate site, particularly, the design and the content of the Services section. Nevertheless, I could not continue to the very end of the implementation process because of the absence of the definite image assets that were needed on the page. I instead opted to spend as much time as was possible on asset preparation, in which case I used Figma to scale and manipulate the existing placeholders to fit into the appropriate dimensions of the website design framework.

Day 19 - I displayed the latest development version of the site to the Corporate Secretary, which is Ma'am Leah. She is extremely detail-oriented and gave precious points on how to make the site better. In this meeting, she informed me about the history of MaYo Holdings and Construction, Inc., rules they adhere to and how the site should be in line with the vision of SOG. This critiquing was critical in making sure that the online version of the company reflects itself to the corporate image.

Day 20 - I took the day changing the site to suit the vision, and responses of Ma'am Leah. I have included the history of the company in the history of the site where I observed that the name MaYo is the fused words of the names of the founders Sir Manny Ramos and Maam Yollie Ramos. Later in my shift, I switched to work in technical support, where I helped Sir Jerico and Sir Charles to install the appropriate equipment and audio-visual needs in the chapel.

Day 21 - I was tasked to assist with the technical side of the 69th Golden Years reunion of Sir Manny Ramos that was to be hosted at the farm. The main task that I needed to take care of was the sound and audio system and set up of the event with Sir Jerico. I would control the list of music and handle the requests of the elders and the guests keeping the necessary level of sound and making sure that the program does not go off the track in terms of technical failures.

Day 22 - I continue my daily task and try to complete past TTD's that I haven't done to not have any pendings and continue with the progress of finishing the website and also I did my weekly report for the 5th week of being here. At the end of the day, I helped sir charles and sir jericho with the setup in the multi-purpose office for the recollection on Saturday.
